NEW NORMS - CREW

Based on limit of 5 athletes per Crew

Set-up of DB12-crew , without Coach

- 1) Reduction of 7 crew members = loss of 58%
- 2) Loss of stability is still marginal at best
- 3) Boat is still stable
- 4) **Only 5-crew aboard DB12 permitted**

Set-up of DB22-crew , without Coach

- 1) Reduction of 17 crew members = loss of 77.3%
- 2) Loss of stability is serious
- 3) Boat will become very unstable and may capsize
- 4) **5-crew aboard DB22 therefore not permitted**

Description

- ❑ Definition of 5 athletes (the “Crew”) = 4 Paddlers + 1 Steer, excluding one (1) Coach. Typical Crew size: 1 Steer in the back ; 4 Paddlers in the boat
- ❑ Total permissible inside boat (the “Full Crew”) = 1 Coach + 5 Athletes. Typical crew size: 1 Steer in the back, 1 Coach in the front and 4 paddlers in the boat
- ❑ The Coach can double-up as the Steer ; in this case, the boat can only have 5 persons (1 Coach/Steer + 4 Athletes) aboard.
- ❑ If no Coach present, the boat can only have 5 athletes (1 Steer + 4 Athletes) aboard

Requirements

- ❑ 5-crew permitted for the DB12 boat only
- ❑ 2 paddlers on the Right & 2 paddlers on the Left to balance the boat
- ❑ Social distancing of 2m between the 2 paddlers on one side
- ❑ Crew must practice proper boat handling, i.e. stabilize seating, bracing, controlled movements inside the boat, etc.
- ❑ Crew in different boats cannot cross over
- ❑ The Crew must remain with the same boat at all times for the session

❑ A paddler can only paddle with 1 team only ; even on different days

NEW NORMS – THE COACH

- ❑ Total permissible inside boat (the “Full Crew”) = 1 Coach + 5 Athletes
- ❑ *The Coach must be in the front of the boat and be seated. The reduction to just 4 athletes lightened the boat’s displacement and brought the centre-of-gravity higher. Probability for a standing coach to fall off the boat therefore greater*
- ❑ If there is no Coach present in the boat, a non-Coach (i.e. no certifications) cannot fill-in the exclusive Coach position in the front of the boat
- ❑ The Coach can double-up as the Steer ; in this case, the boat can only have 5 persons (1 Coach/Steer + 4 Athletes) aboard.
- ❑ If no Coach present, the boat can only have 5 athletes (1 Steer + 4 Athletes) aboard
- ❑ The Coach must remain with the same boat at all times for the session
- ❑ The Coach is required to be protected at all times so MUST WEAR face mask or face shield
- ❑ If The Coach is wearing a face shield, need to change to face mask once dragon boating session is over and The Coach is back on land

Coach with Face Shield

NEW NORMS – MENTORS

Mentors

- Defined as a “Senior Paddler” within the team
- Assist the Trainer/Coach to teach new paddlers how to paddle
- Functions as a Trainer/Coach Assistant
- Mentors are required to wear face mask or face shield

Requirements

- Mentor must seat in seat#1
- Mentors permitted to face the crew
- Seat#2 must be left blank
- New paddlers seating staggered in Seats #3, #4 & #5
- Mentor must not make physical contact with the new paddlers

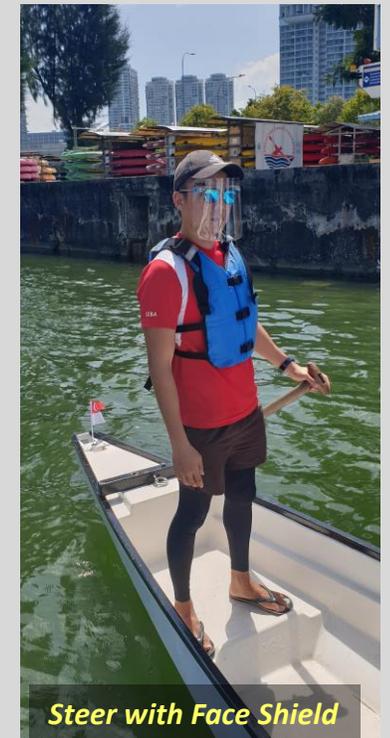

NEW NORMS – THE STEER

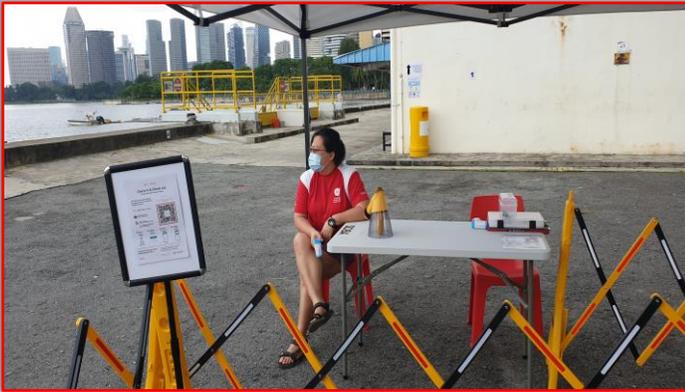

- ❑ Definition of 5 athletes (the “Crew”) = 4 Paddlers + 1 Steer, excluding one (1) Coach. Typical Crew size: 1 Steer in the back ; 4 Paddlers in the boat
- ❑ Total permissible inside boat (the “Full Crew”) = 1 Coach + 5 Athletes. Typical crew size: 1 Steer in the back, 1 Coach in the front and 4 paddlers in the boat
- ❑ The Coach can double-up as the Steer ; in this case, the boat can only have 5 persons (1 Coach/Steer + 4 Athletes) aboard.
- ❑ The Steer in different boats cannot cross over
- ❑ The Steer must remain with the same boat at all times for the session
- ❑ The Steer is required to be protected at all times so MUST WEAR face mask or face shield
- ❑ If The Steer is wearing a face shield, need to change to face mask once dragon boating session is over and The Steer is back on land

Two or more Certified Steers in the Boat

- ❑ For example, there are other certified Steers inside the boat who are paddling while a certified Steers is steering the boat
- ❑ The certified Steers are permitted to swap positions provided the rudder handle and holding stem is disinfected before every swap
